

Accuracy is expanding in Europe

Just one year after being launched, Accuracy, a subsidiary of the Aon group specialising in corporate financial consultancy services, is opening a new office in Madrid.

The Madrid team will offer their financial expertise to companies and investment funds, in the following areas:

- Transaction Support (acquisitions and disposals)
- Support with dispute resolution/litigation (loss assessments)
- Assessments and analyses (modelling, valuation, turnaround plans for subsidiaries, business plans, etc.)

Their extensive range of services will be further enhanced by cooperative projects between the Paris and Madrid offices.

This is the first stage in Accuracy's European expansion: Italian and German offices are planned to follow in the short and medium term.

The company's European expansion operation is being managed by the Paris office (Contact: Frédéric Duponchel – Managing Director).
