

ACCURACY IS EXPANDING ITS REAL ESTATE DIVISION

Accuracy is expanding its real estate division with the recruitment of Gaëlle Mathey (age 35 , ESTP, an ESCP Master) and Nicolas Paillot de Montabert (age 29, ESSEC, DECF).

After 10 years' experience in the real estate department of one of the "Big 4" Anglo-Saxon auditing companies, Gaëlle Mathey has joined Accuracy as Vice-President and will be responsible for its real estate division.

For his part, Nicolas Paillot de Montabert spent five years with Arthur Andersen and subsequently with PricewaterhouseCoopers in the transaction support departments (real estate sector).

With the expansion of this division, Accuracy is in a position to offer its range of corporate financial consultancy services to key players in the property sector including real estate companies, investment funds, developers and companies with real estate portfolios.

Accuracy, (a subsidiary of the AON group), has developed a new model in financial consultancy services. The company undertakes "tailored" assignments in the corporate finance field, and does not intervene in regulated professional activities (auditing or public accounting, etc). Accuracy's areas of expertise include transaction support, corporate assessments and valuations, support with dispute resolution and litigation, in addition to corporate recovery.

In 2005, Accuracy carried out work for major industrial groups and financial investors.
