

## Accuracy extends its partnership with the promotion of five new partners and one new principal

Paris, 16 January 2025

**Accuracy, the international independent advisory firm, has promoted five of its directors to partners and one director to principal**, continuing its international growth since its creation in 2004. This brings the total number of Accuracy partners and principals to 89, spread across 14 countries.

Frédéric Duponchel, President of Accuracy, states: *“We are delighted to start 2025 by announcing the promotion of five new partners and one new principal. These promotions reflect the diversity of expertise and the international spirit that have driven our firm’s growth and success over the past two decades.”*

### **Julien Baudinaud**

Julien has over fifteen years of professional experience, combining consulting and corporate roles. He spent six years in the finance department of a large French listed corporation, where he developed expertise in M&A processes, financial planning and analysis, transformation and change management, and served as chief financial officer. During his nine years at Accuracy, Julien has been involved in over 80 engagements, building deep expertise in assisting large corporations in complex situations, as well as in financial due diligence, modeling, and valuation. He has developed a strong focus on infrastructure investments, advising corporates and infrastructure funds on their projects and investment strategies. Julien graduated from Ecole Polytechnique (X06) and holds a Master’s degree from École Polytechnique/Oxford.

### **Aomar Elalamy**

Aomar has over eleven years of professional experience and has been with the firm since 2014. He started his Accuracy career in the Paris office and moved to Morocco in 2018 to lead the Casablanca office. Aomar specialises in advisory services for corporates, public institutions and PE funds in Morocco and Africa, covering a wide range of situations such as valuation assessments, financial due diligence, strategic analysis and quantification of synergies. He also has experience in the analysis and quantification of damages in the context of commercial litigation and international arbitration with over 100 engagements.

Aomar holds a Master of Science in Applied Mathematics from Centrale Paris School.

### **Neeraj Kochar**

Neeraj joined Accuracy in 2016 as a Senior Associate and specialises in transactions advisory services, arbitration and litigation matters. Over the years, he has led high-stakes domestic and cross-border M&A transactions, private equity fundraising, and due diligence projects, delivering strategic solutions for clients across diverse industries and geographies. He is also an accomplished expert witness, having worked on complex India-focused ad hoc arbitration cases and international arbitration disputes under leading institutions such as the Singapore International Arbitration Centre (SIAC), the International Chamber of Commerce (ICC), and the London Court of International Arbitration (LCIA). Neeraj’s professional journey began in 2011 with PwC, where he gained experience in statutory audits, tax reviews, and group reporting for several prominent Indian corporates. In 2014, he joined KPMG India’s Transaction Services team, specializing in financial due diligence (FDD) and vendor due diligence (VDD), advising on several marquee transactions across multiple sectors and geographies. A Chartered Accountant by qualification, Neeraj is also a Company Secretary and holds a Bachelor’s degree in Commerce. His expertise is further strengthened by certifications in Arbitration and Conciliation and Forensic Accounting and Fraud Detection from the Institute of Chartered Accountants of India. With a career defined by excellence and impact, Neeraj continues to deliver innovative advisory solutions and remains a trusted partner for clients navigating complex financial and arbitration landscapes.

#### **Tayo Okunade**

Tayo is an industry-recognised testifying delay expert who specialises in addressing issues of delay and causation arising from complex construction and engineering disputes, typically in the energy, transport and infrastructure sectors. He has over fifteen years of professional consulting experience gained in both pre-dispute and formal dispute situations. He joined the firm in 2016 after working in a forensic planning role for a major UK defence contractor. He uses forensic delay analysis techniques and his programming know-how to assist arbitral tribunals and contracting parties to make informed decisions. Tayo is regularly appointed to provide written and oral independent expert evidence on matters being resolved using international arbitration and other dispute resolution forums. He is currently appointed in arbitrations under ICC and LCIA rules. Tayo holds an undergraduate law degree and is a member of the Society of Construction Law in the UK.

#### **Abel Perea Burrel**

Abel has solid experience in corporate strategy and transaction advisory services. He held various positions within L'Oréal Group before joining Accuracy in 2019. Abel has completed various strategic and financial engagements in the context of acquisition/divestiture processes, strategic plan definition and business plan modelling, on behalf of large public companies and medium-sized companies, investment funds and corporate venture capital. Abel is involved in engagements covering a variety of sectors, such as retail, luxury and manufacturing. He has developed extensive expertise in the FMCG industry, especially cosmetics. Abel holds a Master of Science in Engineering from Ecole des Ponts et Chaussées and Civil Engineering and from Universitat Politècnica de Catalunya.

#### **Steve Molloy**

Steve has extensive experience in corporate investigations, particularly those involving big data, technology, and electronic devices. He specialises in forensic technology and regularly leads investigative engagements involving forensic computing, data analytics, cybersecurity, and eDiscovery. Since joining Accuracy in 2018, Steve has supported clients across numerous countries and contexts, including internal corporate inquiries, multinational regulatory investigations, and data governance matters. Prior to Accuracy, Steve worked at Ernst & Young and Deloitte, where he gained significant experience managing global forensic and cybersecurity matters. Steve's expertise lies in simplifying the complexities of data and technology in time-sensitive, high-pressure investigative situations. Steve holds a first class degree in Forensic Computing from De Montfort University.
